

Curriculum Vitae

George N. Makrakis

Professor

University of Crete
Department of Mathematics
& Applied Mathematics
P.O. Box 2208
GR 710 03 Heraklion, Crete
Greece

Phone: +30 2810 393708
Fax: +30 2810 393701
Email: makrkg@uoc.gr
Homepage: <http://users.tem.uoc.gr/~makrkg/>

FORTH
Institute of Applied and
Computational Mathematics
Nikolaou Plastira 100, Vassilika Vouton,
GR 700 13 Heraklion, Crete
Greece

Phone: +30 2810 391777
Fax: +30 2810 391901
Email: g.n.makrakis@iacm.forth.gr

Personal

Born on January 22, 1963

Greek Citizen

Married, two children

Military service: July 1992-February 1994
Greek Army, Department of Artillery

Education

Diploma in Naval Architecture and Marine Engineering
National Technical University of Athens (October 1986)

Ph.D., Department of Naval Architecture and Marine Engineering,
National Technical University of Athens (July 1992)

Research interests

Wave propagation

Inverse scattering

Mechanics, acoustics, geophysics

Asymptotic techniques

Applied partial differential equations

Academic employment

Research Assistant (February 1986-July 1992)
Dept. Naval Architecture and Marine Engineering,
National Technical University of Athens, Greece

Visiting Lecturer (February 1994- August 1994)
Dept. Mathematics, University of Crete, Greece

Research Fellow (September 1994-April 1995)
Dept. Mathematics II, Science University of Tokyo, Japan
(funded by a Fellowship of the Japanese-German Center of Berlin)

Researcher-D (May 1995-December 1997)
Institute of Applied & Computational Mathematics,
Foundation for Research & Technology-Hellas (FORTH)

Researcher-C (December 1997-November 2001)
Institute of Applied & Computational Mathematics,
Foundation for Research & Technology-Hellas (FORTH)

Researcher-B (November 2001-February 2004)
Institute of Applied & Computational Mathematics,
Foundation for Research & Technology-Hellas (FORTH)

Associate Professor (February 2004-December 2014)
Department of Applied Mathematics,
University of Crete

Professor (December 2014-)
Department of Mathematics & Applied Mathematics,
University of Crete

Publications

A. Journal Articles

A1. P.S. Theocaris and G.N. Makrakis, *The kinked crack solved by Mellin transform*, Journal of Elasticity, Vol. 16, pp. 393-411, 1986.

A2. P.S. Theocaris and G.N. Makrakis, *Crack kinking in anti-plane shear solved by the Mellin transform*, International Journal of Fracture, Vol. 34, pp. 251-262, 1987.

A3. P.S. Theocaris and G.N. Makrakis, *Caustics and quasi-conformality. A new method for the evaluation of stress singularities*, Journal of Applied Mathematics and Physics (ZAMP), Vol. 40, pp. 410-424, 1989.

A4. P.C. Xirouchakis and G.N. Makrakis, *Edge crack in an elastic strip on a liquid foundation*, Journal of Ship Research, Vol. 33, pp. 214-220, 1989.

A5. G.A. Athanassoulis and G.N. Makrakis, *A function-theoretic approach to a two-dimensional wave-body interaction problem*, Applicable Analysis, Vol. 54, No. 3-4, pp. 283-303, 1994.

A6. G.N. Makrakis, *Parabolic approximation of nonlocal boundary conditions in ocean acoustics*, Applicable Analysis, Vol. 66, pp. 323-332, 1997.

A7. G.N. Makrakis, *Asymptotic study of the elastic seabed effects in ocean acoustics*, Applicable Analysis, Vol. 66, pp. 357-375, 1997.

- C10.** S. Yu. Dobrokhotov, G. N. Makrakis and V. E. Nazaikinski, *Fourier integrals and a new representation of Maslov's canonical operator near caustics*, in *Spectral Theory and Differential Equations: V. A. Marchenko's 90th Anniversary Collection* (Eds. E. Khruslov, L. Pastur & D. Shepelsky), American Mathematical Society Translations-Series 2, *Advances in the Mathematical Sciences*, Vol. 233, 2014.

D. Books

D1. I. Athanasopoulos, G. Makrakis and J.F. Rodrigues (Eds.), *Free boundary problems: theory and applications*, Chapman & Hall, CRC, 1999.

D2. M.I. Taroudakis and G.N. Makrakis (Eds.), *Inverse problems in underwater acoustics*, Springer-Verlag, 2001.

E. Academic works

E1. G.N. Makrakis, *Evaluation of the order of stress singularity in elastic fields by the method of pseudocaustics*, Diploma Thesis, Nat. Tech. Univ. Athens, Section of Engineering Sciences, October 1985.

E2. G.N. Makrakis, *Elastic wave propagation in a half plane with a hole*, Ph.D. Thesis, Nat. Tech. Univ. Athens, Dept. Naval Arch. Marine Eng., July 1992.

Participation in conferences & workshops (selection)

1. G.N. Makrakis, *Numerical evaluation of the generalized Lamb-Green tensors*, Workshop on Wave Propagation Problems in Solids and Fluids, Aristotle University of Thessaloniki, November 8, 1991, Thessaloniki, Greece.

2. G.A. Athanassoulis, G.N. Makrakis and E.K. Skarsoulis, *A wave-theoretic inversion scheme for acoustic parameter identification and its application to ocean tomography*, 2nd Workshop on Wave Propagation Problems, Foundation for Research and Technology, Institute for Computational and Applied Mathematics, June 16-17, 1992, Heraklion, Crete, Greece.

3. G.N. Makrakis, *Sound propagation in a fluid layer with an elastic bottom*, Russian-Japan Symposium on Inverse and Ill-posed Problems, Tokyo Metropolitan University, September 24-25, 1994, Tokyo, Japan.

4. G.N. Makrakis, *Low-frequency diffraction by defects in an elastic half-space*, Symposium on "The fracture criterion from the mathematical point of view", Dept. Comp. Science, Hiroshima-Denki Institute of Technology, Jan. 27-28, 1995, Kanazawa, Japan (invited talk).

5. G.N. Makrakis, *Elastic-bottom effects in ocean acoustic-wave propagation*, Conference on Inverse problems in Applied Sciences, Dept. Math., Univ. of Tokyo, Feb. 9-11, 1995, Tokyo, Japan.

6. G. Nakamura and G. N. Makrakis, *Global uniqueness for ocean acoustic tomography*, 3rd International Congress on Industrial and Applied Mathematics, July 3-8, 1995, Hamburg, Germany.

7. G.N. Makrakis, *The influence of elastic bottom in underwater sound propagation*, International Seminar "Days of Diffraction", Mathematical Institute of the Russian Academy of Sciences, June 4-6, 1996, St. Petersburg, Russia (invited talk).

8. G.N. Makrakis and M. Yamamoto, *Generalized moment problems in transient inverse scattering for acoustic waveguides*, World Congress of Nonlinear Analysts, Athens, July 10-17, 1996.

9. G.N. Makrakis and M. Yamamoto, *Integral-geometric equations for transient inverse scattering in acoustics waveguides*, 3rd Hellenic-European Conference on Mathematics and Informatics (HERMIS 96), Athens, September 26-28, 1996.

10. A.G. Ramm and G.N. Makrakis, *Scattering by obstacles in acoustic waveguides*, ISAAC Congress, Univ. Delaware, June 4-8, 1997.

11. G.N. Makrakis and M. Yamamoto, *A dynamic inverse scattering problem for acoustic waveguide*, ISAAC Congress, Univ. Delaware, June 4-8, 1997 (invited talk).
12. M. Ikehata, G.N. Makrakis, and G. Nakamura, *Uniqueness for an inverse boundary value problem in ocean acoustics*, Japan-Korea Joint Scientific Seminar on "Inverse Problems and Related Topics", Kobe Institute (St. Catherine's College, University of Oxford), Kobe, Japan, Feb. 6-10, 1998.
13. S. Izumiya, G.T. Kossioris and G.N. Makrakis, *Canonical operators and relevant functions in multiphase geometric optics*, TMR Workshop "Hyperbolic aspects of moment closure problems", Institute of Applied & Computational Mathematics, FO.R.T.H., April 1-4, 1998.
14. M. Ikehata, G.N. Makrakis and G. Nakamura, *Inverse boundary value problem for ocean acoustics using point sources*, First Workshop on "Inverse Problems in Underwater Acoustics", Institute of Applied & Computational Mathematics, FO.R.T.H., May 17-19, 1999.
15. E. Kalligiannaki, T. Katsaounis, G.T. Kossioris and G.N. Makrakis, *High frequency asymptotic computations for stratified acoustic waveguides*, 4th International Conference on Theoretical & Computational Acoustics, Trieste, May 10-14, 1999.
16. G.N. Makrakis, *Asymptotic expansion of the Faddeev-Green function*, 2nd International ISAAC Congress, Fukuoka, August 15-21, 1999.
17. Participation to the EuroSummerSchool "New Analytic and Geometric Methods in Inverse problems", and the Euroconference: *Recent Developments in the Wave Field and Diffuse Tomographic Inverse Problems*, Heriot-Watt Univ., Edinburgh, July 24-August 5, 2000.
18. G.N. Makrakis, *Inverse scattering for acoustic waveguides*, Workshop on "Imaging in Noisy Environments", Institute of Applied & Computational Mathematics, FO.R.T.H., June 19-21, 2001.
19. G.N. Makrakis and S. Filippas *High frequency energy densities via Wigner transform*, First EMS-SIAM Conference "Applied Mathematics in our Changing World", Berlin, September 2-6, 2001.
20. E. Kalligiannaki, Th. Katsaounis and G.N. Makrakis, *Particle method for the Wigner equation in high-frequency propagation*, First EMS-SIAM Conference "Applied Mathematics in our Changing World", Berlin, September 2-6, 2001.
21. G.N. Makrakis, *Wignerization of caustics*, Acoustics, mechanics, and the related topics of mathematical analysis (ARTMA), International Conference to celebrate R.P. Gilbert's 70th birthday, CAES de CNRS, Frejus, France, 18-22 June, 2002.
22. E.K. Skarsoulis, G. Piperakis and G.N. Makrakis, *Tangent linear and second order models from the Born and Rytov approximation*, 151st Meeting of the Acoustical Society of America, Providence, R.I., June 5-9, 2001.
23. G.N. Makrakis, *Asymptotic expansion of the solution of the Wigner function near caustics*, in Wave propagation, scattering, asymptotics, 6th Int. Congress on Industrial & Applied Mathematics (ICIAM 07), Zurich, July 2007.
24. G.N. Makrakis, *High frequency asymptotics of the Wigner equation near caustics*, Workshop on "Computational high frequency waves", Wolfgang Pauli Institute, University of Vienna, February 26-28, 2007 (invited talk)
25. G.N. Makrakis, *Semiclassical asymptotics of the Wigner equation near caustics*, Workshop on Applied Analysis & Fast Computations in Phase Space, Wolfgang Pauli Institute, University of Vienna, September 2-5, 2008 (invited talk)
26. G.N. Makrakis, *Evolution of semiclassical Wigner function (the higher dimensional case)*, Workshop on Fast Computations in Phase Space, Wolfgang Pauli Institute, University of Vienna, November 2-5, 2008 (invited talk)

27. G.N. Makrakis, *Wigner transform approach to multiphase geometrical optics*, PDE Seminar. Department of Mathematics, Hokkaido University, Sapporo, Japan, March 17, 2011.
28. S.Yu. Dobrokhotov, G.N. Makrakis and V. Nazaikinskii, *Beam dynamics, focal points and Lagrangian manifolds*, Days of Diffraction 2012, St. Petersburg, May28-Jun1, 2012 (International Conference organised by St. Petersburg Department of Steklov Mathematical Institute and Euler International Mathematical Institute of the Russian Academy of Sciences).
29. G.N. Makrakis, *Uniformization by Wignerization*, Workshop on Confined quantum systems: Modeling, Analysis and Computation", Wolfgang Pauli Institute, University of Vienna, February 4-8, 2013 (invited talk)
30. S. Yu. Dobrokhotov, G. N. Makrakis and V. E. Nazaikinski, *A new representation Maslov's canonical operator near caustics and applications*, Conference "Mathematical Physics. Vladimirov-90" dedicated to the 90th anniversary of academician V. S. Vladimirov, Moscow, November 13-15, 2013 (invited talk).

Organization of workshops

1. Co-organizer (with M. Taroudakis, Univ. Crete) of the First Workshop on *"Inverse Problems in Underwater Acoustics"*, Institute of Applied & Computational Mathematics, FO.R.T.H., May 17-19, 1999.
2. Co-organizer (with G. Papanicolaou, Stanford Univ.) of the workshop *"Imaging in noisy environments"*, Institute of Applied & Computational Mathematics, FO.R.T.H., June 19-21, 2001.
3. Organizer of the: EMS Lectures *"Waves and transport in random media"* (by G. Papanicolaou, Stanford), Dept. Appl. Math., Univ. Crete, June 19-21, 2001.
4. Co-organizer (with C. Makridakis and A. Tzavaras) of the workshop *"Differential Equations with Applications in Science and Engineering"* (DEASE Annual Meeting), IACM-FORTH, June 2009.
5. Co-organizer (with P. Markowich, T. Paul and A. Tzavaras) of the Workshop *"Semiclassical & multi scale aspects of wave propagation"*, ACMAC, Univ. Crete, May 28-June 1, 2012.
5. Co-organizer (with . Yu Dobrokhotov) Minisymposium *Semiclassical Methods in Multiple Dimensions* ", in the: International Conference on Applied Mathematics, Heraklion, September 16 - 20, 2013

Research grants & projects

1. ACMAC, *Archimedes Center for Modeling Analysis and Computation*, EU Programme FP7-REGPOT-2009-1, Grant Agreement number: 245749 (2010-2013).
2. (coordinator) *Modeling and Computations in Wave Propagation-MCWAVE*, Marie Curie Development Host Fellowships, EU Project No MCFH-2001-00637, Improving Human Research Potential and the Socio-economic Knowledge Base (2002-2004).
3. *SIGMA, Sediment Identification for Geotechnics by Marine Acoustics*, EU Marine Science and Technology MAST-III Programme PL96-111 (1997-2001).
4. *Viscosity solutions and their applications*, Training and Mobility of Researchers, EU Project FMRX-CT98-0234, Improving Human Research Potential and the Socio-economic Knowledge Base (1997-2000).

5. *Hyperbolic conservation laws*, Training and Mobility of Researchers, EU Project FMRX-CT96-0033, Improving Human Research Potential and the Socio-economic Knowledge Base (1996-2000).
6. (coordinator) *Asymptotic and numerical investigation of the Wigner equation for high frequency propagation near caustics*, Graduate fellowship for the PhD candidate E. Kalligiannaki, Heraklitos Research Grant 88735, funded by the Greek Ministry of Education (2005-2006).
7. *European Doctoral School in Mathematics: Differential Equations with Applications in Science and Engineering*, Marie Curie Early Stage Training multi Site (MEST) financed by the EU 6th Framework Programme, Project. DEASE: MEST-CT-2005-021122 (2005-2009)

Educational activities

A. Supervision of undergraduate diploma theses

1. E. Kalligiannaki, *Computation of high frequency fields near cusp caustics*, Diploma thesis, Dept. Math., University of Crete (1999)
2. M. Zacharioudaki, *Inverse scattering in stratified media. Layer stripping technique for a linear layer*, Diploma thesis, Dept. Math., University of Crete (2000)
3. E. Fergadakis, *Numerical investigation of the Kravtsov-Ludwig system near fold caustics*, Diploma thesis, Dept. Math., University of Crete (2001)
4. A. Karnezis, *Quantum hydrodynamics near caustics*, Diploma thesis, Dept. Math. & Appl. Math., University of Crete (2018)

B. Supervision of master theses

1. E.K. Kalligiannaki, *Particle method for the Wigner equation in high frequency paraxial propagation*, Master thesis, Dept. Mathematics, University of Crete (2002)
2. E.Fergadakis, *Numerical experiments with the particle method for the Wigner equation in high frequency paraxial propagation*, Master thesis, Dept. Mathematics, University of Crete (2004)
3. K.-S. Giannopoulou, *Uniformization of multiphase WKB solutions via Wigner transform*, Master thesis, Dept. Appl. Math., University of Crete (2009)

C. Supervision of doctoral theses

1. E.K. Kalligiannaki *Asymptotic solutions of the Wigner equation and high frequency propagation near caustics*, PhD thesis, Dept. Mathematics, University of Crete (2007)
2. K.-S.. Giannopoulou , *Construction of an approximate solution of the Wigner equation by uniformization of WKB functions*, PhD thesis, Dept. Mathematics & Appl. Mathematics, University of Crete (2015)

D. Supervision of postdoctoral researchers

1. Pedro Gonzalez (MCWAVE project, 2005) Research subject: *Optical imaging for small particles in the diffusion approximation*, (current position: Universidad Carlos III de Madrid, Theoretical & Computational Biomedical Imaging Group)
2. P. Karageorge (ACMAC project , 2010/11 & 2012/13) Research subject: *Wave packet propagation in phase space*, (current position: European School, Heraklion, Crete, Greece)

E. Graduate courses (selection)

Fluid mechanics , Wave propagation, Methods of Mathematical Physics ,
Methods of Applied Mathematics, Wave Phenomena.

F. Undergraduate courses (selection)

Approximation Theory , Introduction to Optimization Theory, Functional Analysis,
Introduction to Wave Phenomena, Introduction to Fluid Mechanics, Continuum Mechanics,
Mathematical Modeling I& II, Introduction to statistical mechanics, Classical Mechanics,
Methods of Applied Mathematics, Physics–Mechanics, Calculus I, Introduction to Applied Mathematics.

Administrative activities

1. Chairman, Dept. Appl. Math., Univ. Crete (Oct. 2006–Aug. 2011)
2. Member of the Scientific Council, IACM-FORTH (2008 –2012)

Other professional activities

1. Reviewer for the journals: Inverse Problems, Applicable Analysis, Asymptotic Analysis, Acta Acustica, Journal of Computational Acoustics, Journal of the Acoustical Society of America, Journal of Physics A., and the publishers: Princeton University Press, SIAM, Kluwer Academic Publishers.
2. Member of SIAM(1995-), AMS(1995-), Hellenic Institute of Acoustics(2000-), Technical Chamber of Greece (1985-).
